

JB

Custom **Concepts**

JB Custom Concepts is a northwest Ohio-based manufacturer that specializes in lighting and steel fabrication. We are a second-generation family-owned business that creates custom products for small businesses nearby as well as high-end custom light fixtures for luxury hotels and businesses worldwide.

We work closely with each client to nail every detail. Our partners have counted on our creativity and quality for more than a decade.

Our talented team offers design services as well to help our clients bring their unique visions to life.

All images and descriptions within this catalog are the property of JB Custom Concepts. This catalog showcases our design and fabrication abilities and many of the products within may be under design agreements with respective clients.

Light Source Types

Light styles and wattage per product line

Socket Lights

Light sources that can be replaced by the client with a new bulb as needed. For chandeliers, the bulb needs to be rated for downward facing installation.

E26 Socket
60 Watt

Hardwire Lights

Light sources that require a qualified electrician to change

LED Endostar
3000K or 2700K

LED Strip
2700K
Not UL listed

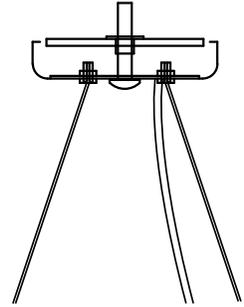

Canopy Styles

Each has variations depending on size and weight of fixture being supported.
Custom sizes available

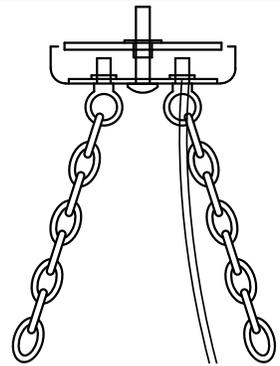

Cable Mount (C)

Upper canopy secured to junction box and building structure per fixture requirements with 1-8 cables going down to hooks, loops, or side exit grippers on the fixture's frame, with external 3 conductor power feed.

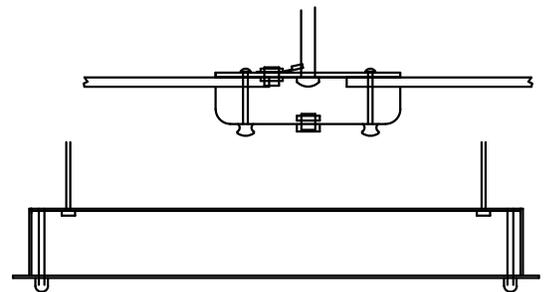

Chain Mount (CH)

Upper canopy secured to junction box and building structure as defined per fixture requirements with 1-8 chains attached to canopy with loops or hooks, with external 3 conductor power feed.

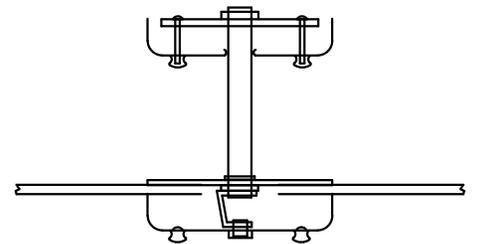

Flush Mount (FM)

Canopy is part of the frame and the frame is secured directly to the junction box and the building structure as defined per individual fixture requirements. Commonly used with fixtures where the LED driver is housed in the canopy.

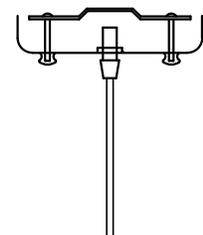

Pipe Mount (PM)

Upper canopy secured to junction box and building structure per fixture requirements, with a single pipe going from the upper canopy to a secondary canopy on the fixture. Pipe size and length varies depending on fixture and customer specifics. Power feed travels through center of the pipe.

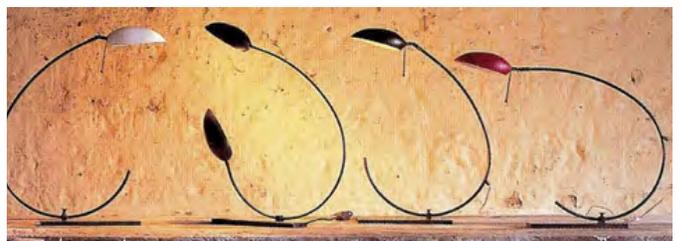

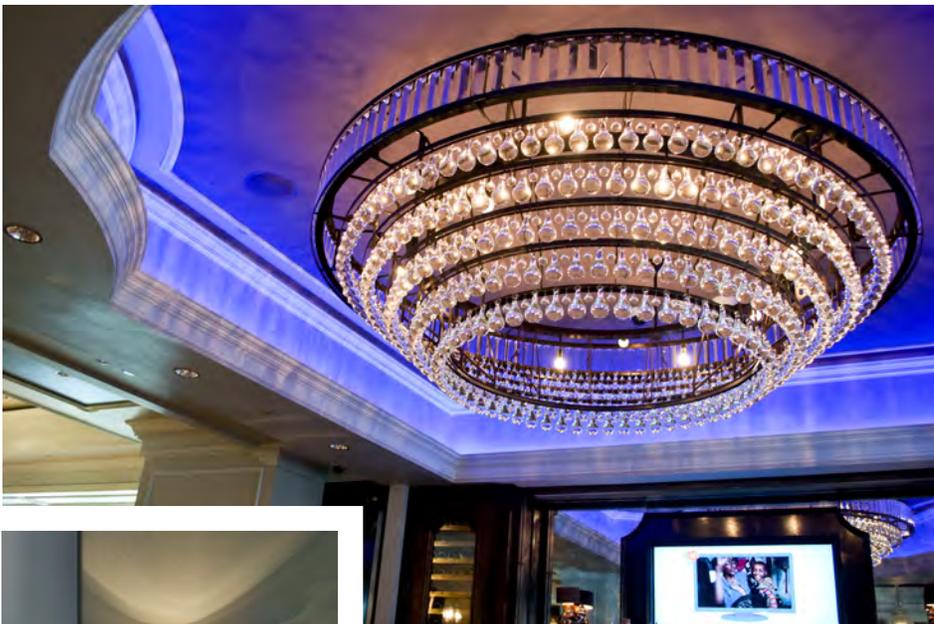

Electrical Only (1W)

Upper canopy secured to junction box and building structure per fixture requirements, lower fixture is supported entirely by power feed wire. This style only works when the canopy is supporting less than 10 pounds, either due to an extremely lightweight fixture or support from a secondary source.

Incandescents

Fixtures with sockets, bulbs can be easily swapped out
Can be listed under UL 1598, but must be fixed to the building structure
Table lamps and floor lamps not UL listed

Arctic Pear

Standard finishes: Patina Bronze and Polished Nickel
Incandescent: E12 sockets

Round and rectangular
most common, from as small as
9" diameter up to 96" diameter

Oval

Wave

Single

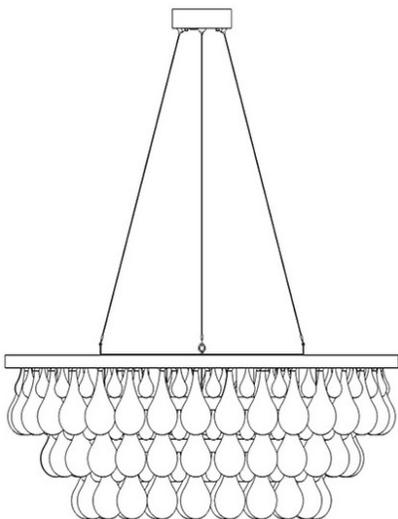

Double

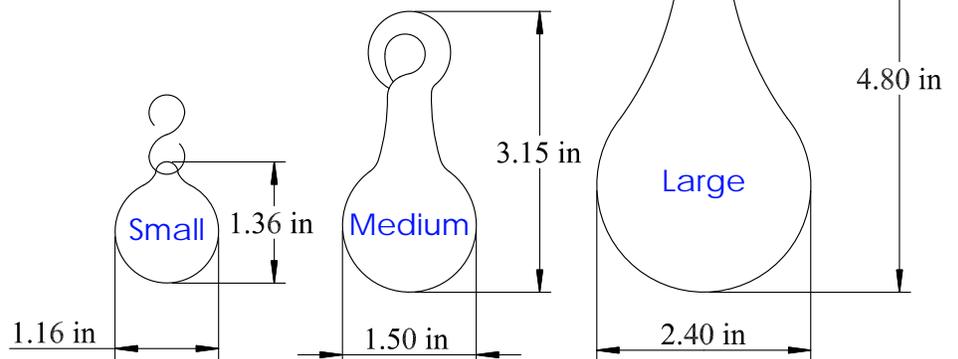

Wall light

Cable mount most common, but
flush mount and pipe mount also
occur regularly

Glass drops
most fixtures use large and
small, but table lamps and
wall lights also use the
medium glass drop

Light Drizzle

Standard finishes: Patina Bronze and Polished Nickel
Incandescent: E12 sockets

Spiral

Rectangle

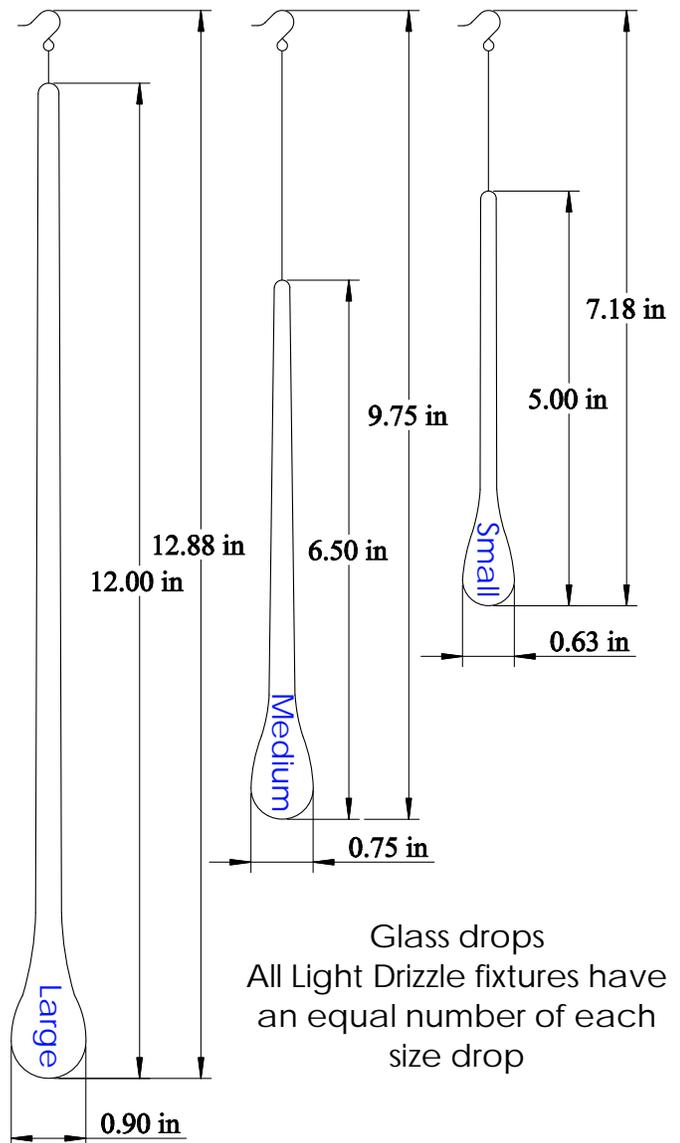

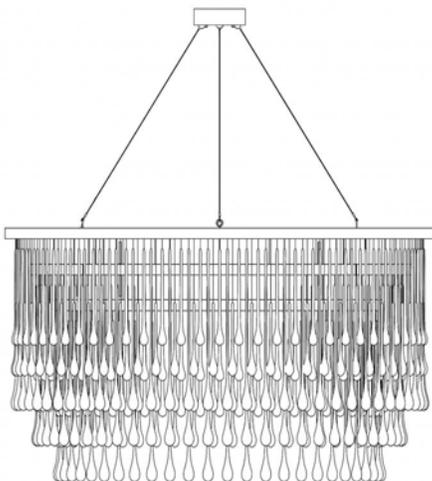

Round

Wall light

Cable mount most common, but flush mount and pipe mount also occur regularly

Glass drops
All Light Drizzle fixtures have an equal number of each size drop

Eclipse

Standard finish: gloss black powder paint
Incandescent: E12

Dark horsehair
(standard)

Pale horsehair

Round

Oval

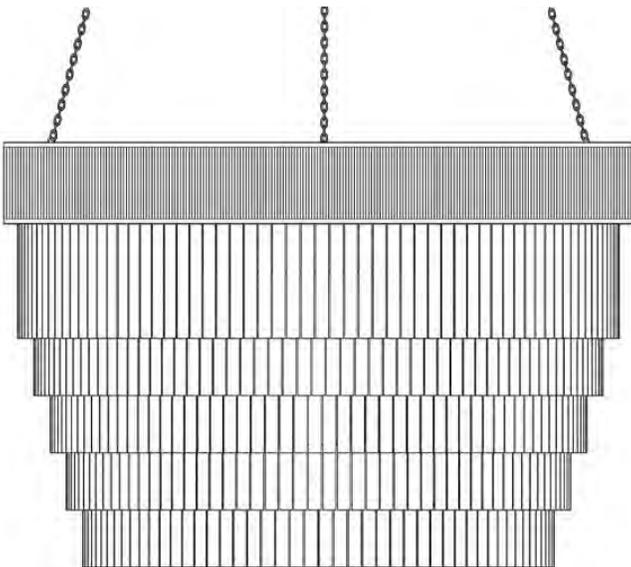

Wall light pendant

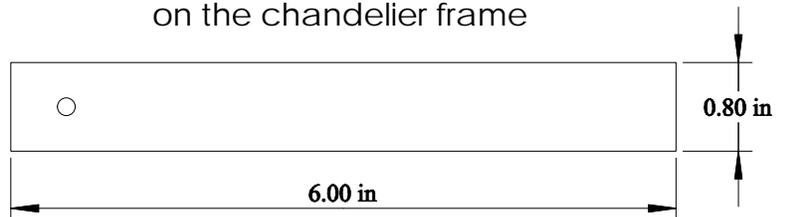

Double layers
of 3 tiers each

Chain mount most common

Horn sticks in black and pale
with a small hole to hang from hooks
on the chandelier frame

Aquarelle

Standard finish: Satin Nickel powder paint

Incandescent: E12

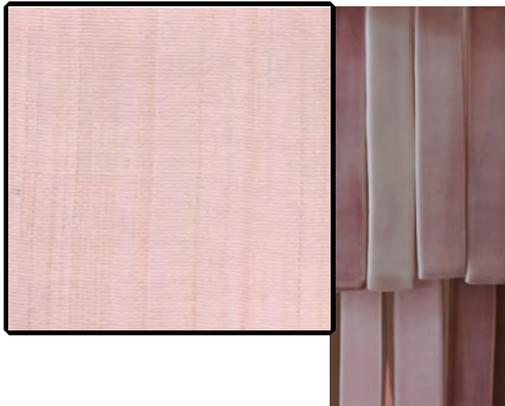

Celadon

Oval

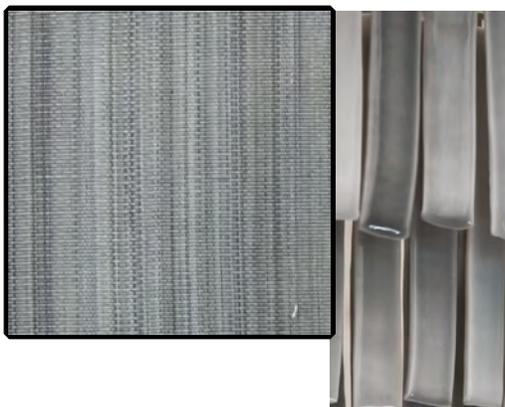

Coral

Pendant

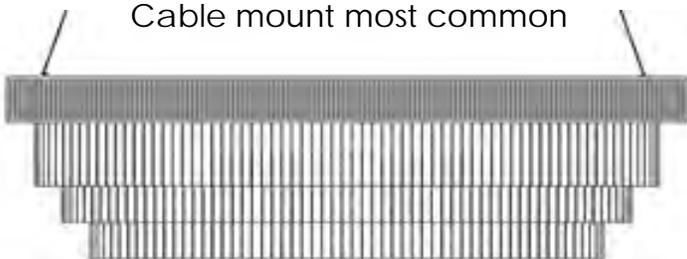

Sky

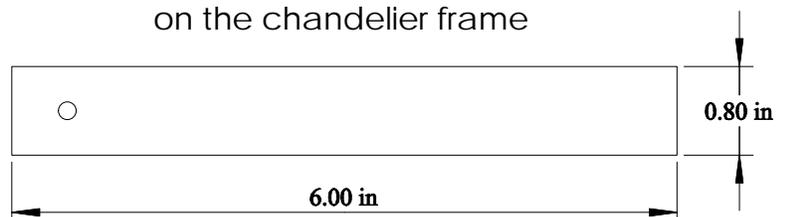

Round

Cable mount most common

Porcelain sticks in Celadon, Sky, or Coral with a small hole to hang from hooks on the chandelier frame

Cloud Shade

Standard finishes: Mirror Silver powder paint
Incandescent bulb E26

Standard round sizes

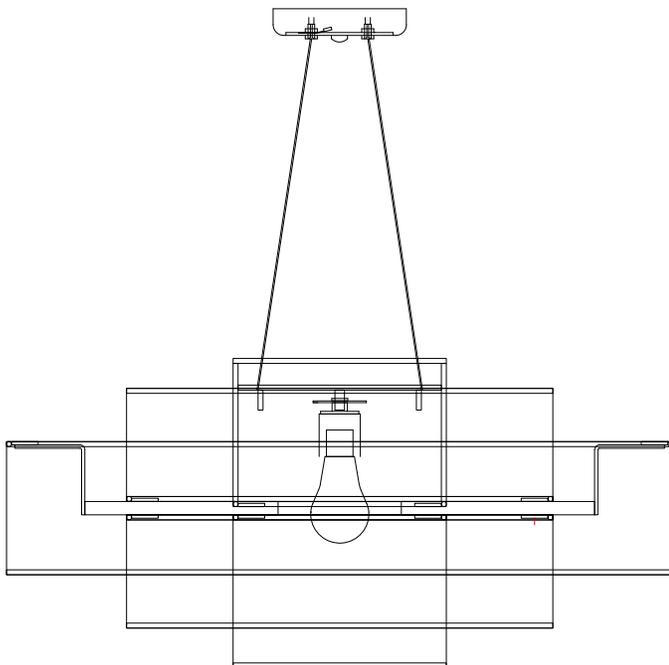

25" 1 Light

38" 3 Light

50" 3 Light

Laminated shade material
fabric, clear styrene, and metallic screen fabric.
Appearance is determined by inner fabric

Cable mount standard

Five shades of round fabric mounted to a
central steel frame

Inward appearance Outward appearance

Graphite

Snow

Old Rose

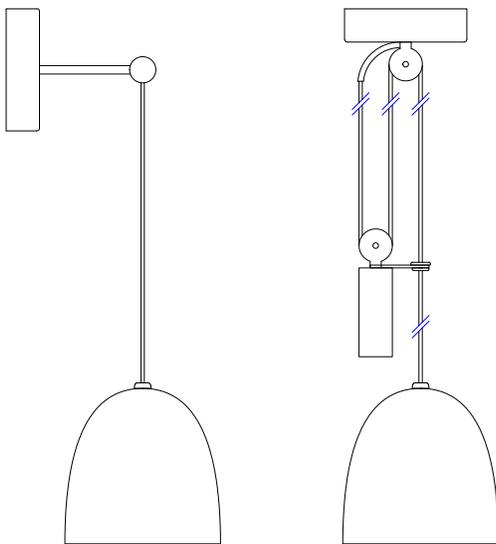

Surya

Oak shades with brass hardware and oak canopies
Incandescent: e12

Pendant

Wall light

Wall lights suspended from brass arm.
Pendant lights include a brass pulley
assembly for adjusting height.

White oak shades are carved while still green,
causing intentional cracks in the wood.
Cracks and bottom edge adorned with
golden gilding. Each shade is unique and
variations in size and shape are common.
Linen covered powerfeed

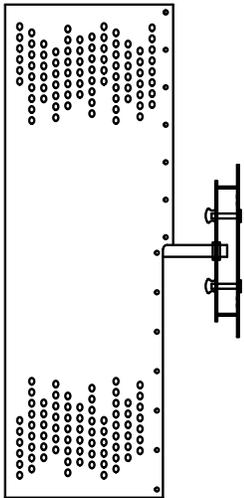

Lancelot

Standard colors: white, black, navy blue, brown

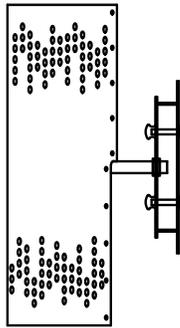

E12 socket 60W

Hand punched leather shades

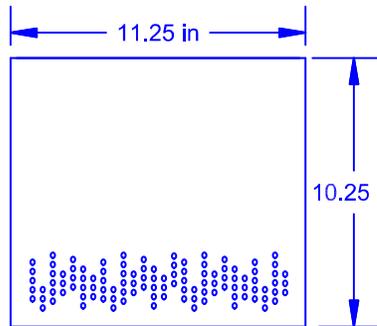

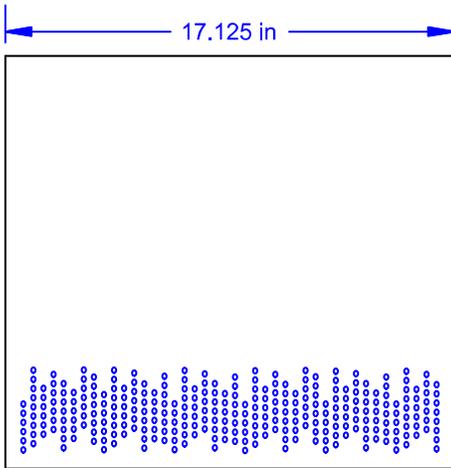

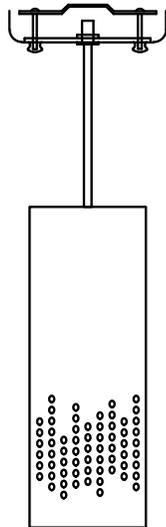

Wall light
large

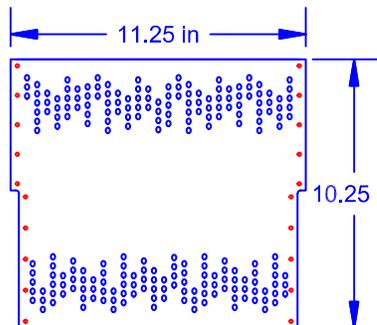

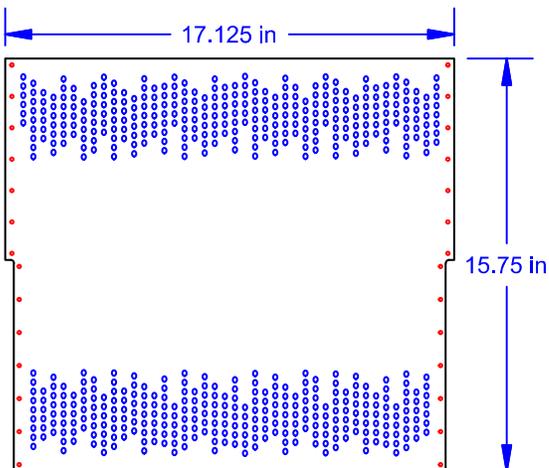

Wall light
small

Pendant

Pendant shades feature hole patterns on only 1 side and have 1 bulb

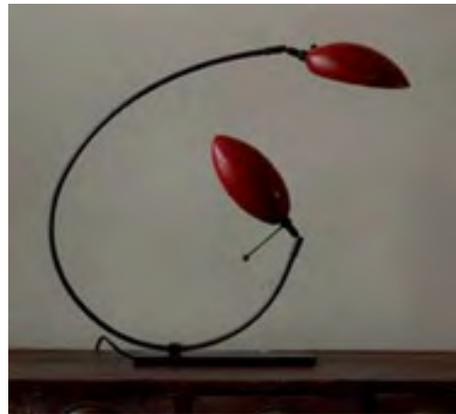

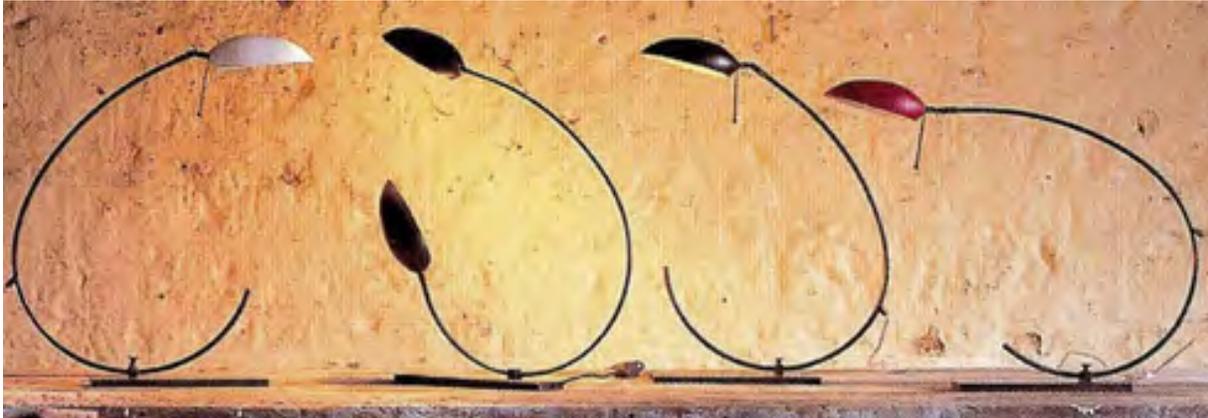

Wall light shades feature a notch for the wall light arm
2 sets of hole patterns for 2 bulbs

Burgundy

LED

Fixtures with hardwired LEDs, require a qualified electrician to replace.
Can be listed under UL 8750, but must strictly adhere to the terms of
JB Custom Concepts UL listing.

Round

Seed Cloud

Standard finishes: powder paint
LED - 90+CRI 3000K or 2700K

Irregular

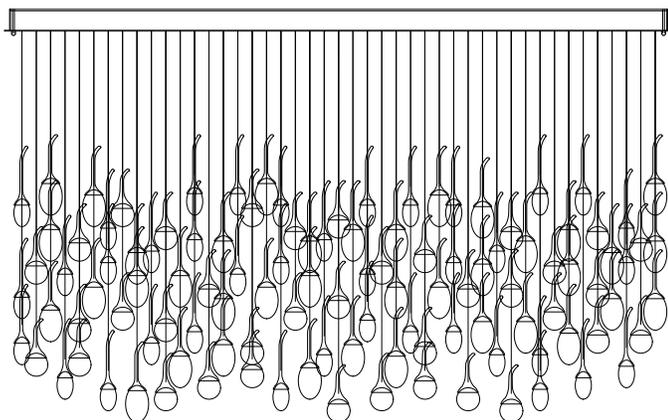

Rectangle

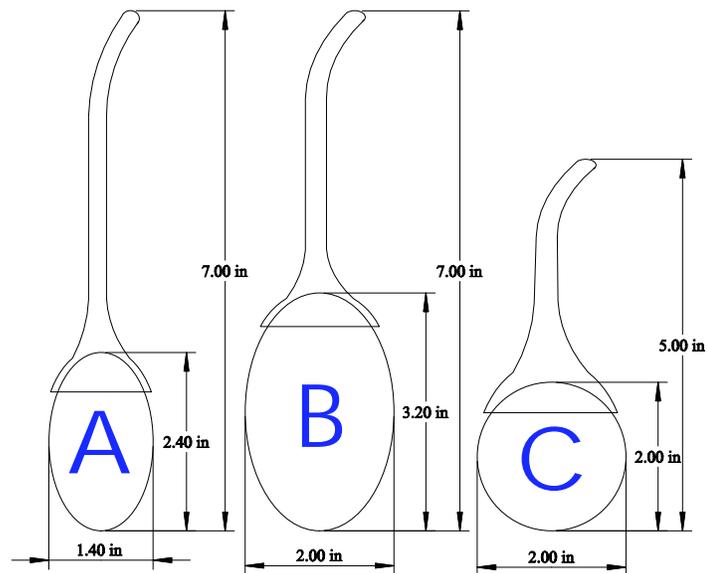

Seed cloud fixtures are extremely customizable, can be made in nearly any size, shape, or number of buds. Fixtures often are made so large that they need to be assembled from multiple smaller sections. LED drivers are required, and the specific driver will vary depending on the requirements of the fixture.

Flush mount most common, but cable mount also occurs regularly

Glass drops and brass buds each designated A, B, or C. Buds come in bronze or satin nickel finish

Each bud is measured to a precise individual length to create the desired effect of the bud cluster and overall size and height

Seed Cloud (Variations)

Variations from the standard ceiling mount Seed Cloud

Damselfly wall light
solid cast brass housing with 6 LEDs
EPT D9 driver - UL listed
available in brass or satin nickel finish

Seed Cloud table lamp (landscape)
steel housing with 7 seed cloud buds suspended
by chains 6 ft twisted black power cord with
toggle switch on back of base
not UL listed
Satin Pewter finish standard

Seed Cloud table lamp (portrait)
steel housing with 6 seed cloud buds
suspended by chains
6 ft twisted black power cord with
toggle switch on back of base
not UL listed
Satin Pewter finish standard

Moonlight Murmuration

Standard finishes: powder paint
LED - 90+CRI 3000K or 2700K

Oval

Irregular

Moonlight Murmuration fixtures are extremely customizable, can be made in nearly any size, shape, or number of buds. Fixtures often are made so large that they need to be assembled from multiple smaller sections. LED drivers are required, and the specific driver will vary depending on the requirements of the fixture.

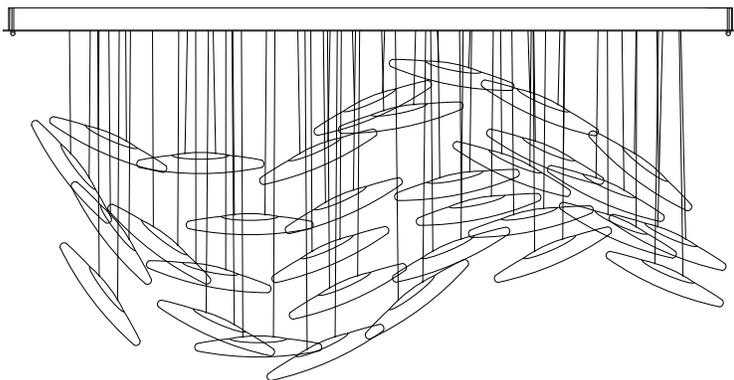

Rectangle

Customizable Formations

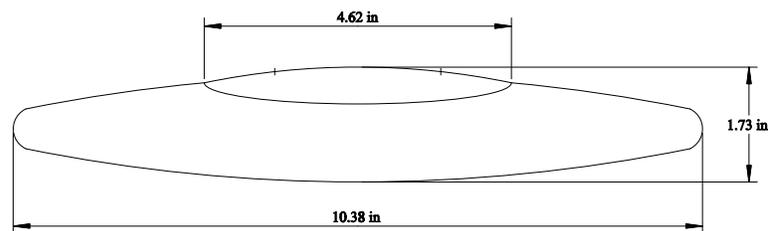

Flush mount most common, but cable mount also occurs regularly

Each bud has two wires and each wire is measured to a precise individual length to create the desired effect of the bud cluster and overall size and height

Glass drops with a brass cap. Size may vary slightly, and caps can be made custom color

Medusa Bloom

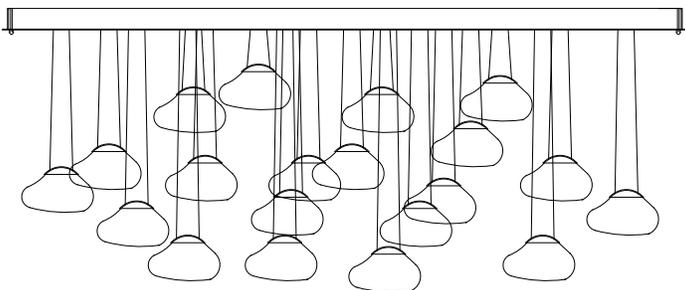

Standard finishes: powder paint
LED - 90+CRI 3000K or 2700K

Medusa Bloom fixtures are extremely customizable, can be made in nearly any size, shape, or number of buds. Fixtures often are made so large that they need to be assembled from multiple smaller sections.

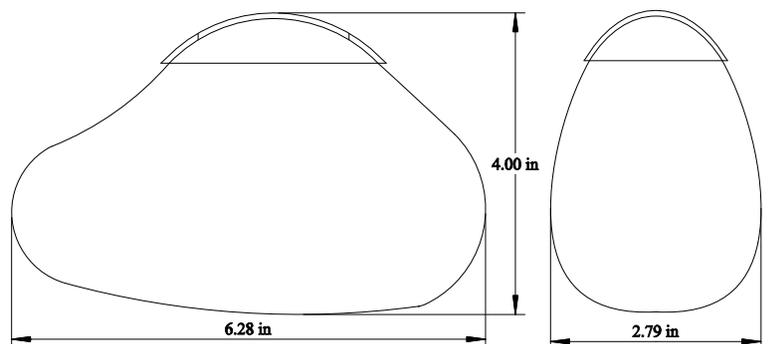

LED drivers are required, and the specific driver will vary depending on the requirements of the fixture.

Flush mount most common,
but cable mount also occurs regularly

Each bud has two wires and each bud is measured to a precise length to create the desired effect of the bud cluster and overall size and height

Glass drops with a brass cap.
Size and shape will vary significantly.
Standard caps are bronze or blackened nickel
but caps can be made custom color.

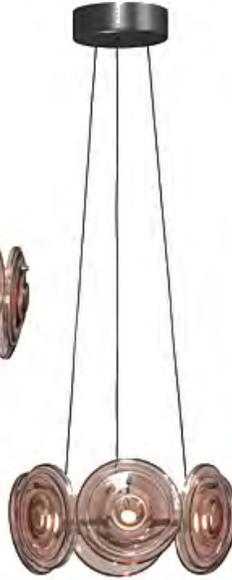

Cosmos

Standard finishes: Trojan Bronze powder paint
LED - 90+CRI 2700K

Round

Standard round size
14" 6 LED
24" 10 LED
32" 14 LED
42" 18 LED

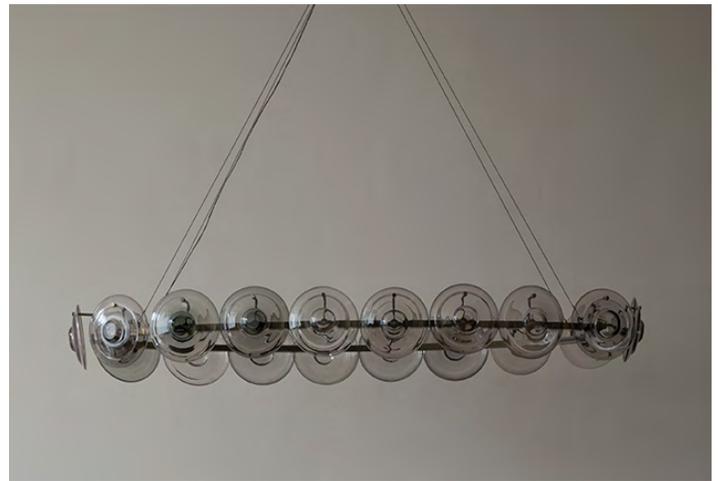

Wall light

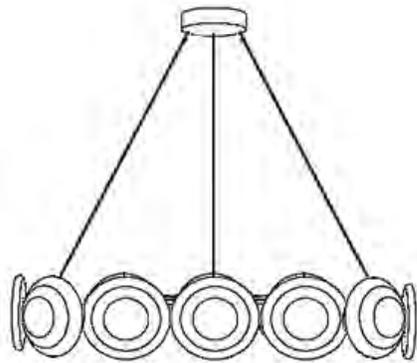

3 LED - not UL listed

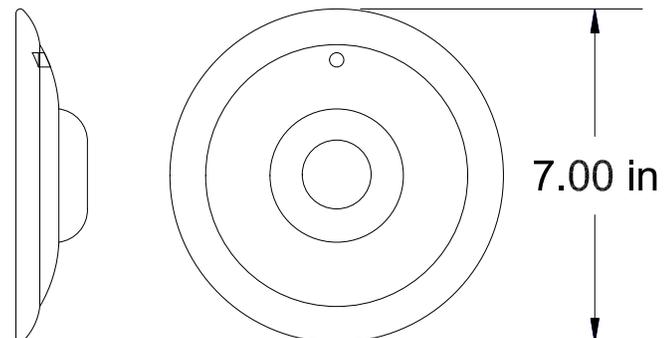

Oval

Cable mount required.
Most use 3 cables
Ovals and 42" round use 4 cables
Drivers housed in canopy, 1 powerfeed
is needed for each LED circuit.

Glass discs in Coral or Ash

Each glass disc is held by an arm in front of an LED housing. The arms alternate between long and short to avoid glass hitting each other.

Beach Pebble

Standard finishes: White oak, with Mangum Beige interior canopy
LED - 90+CRI 3000K or 2700K

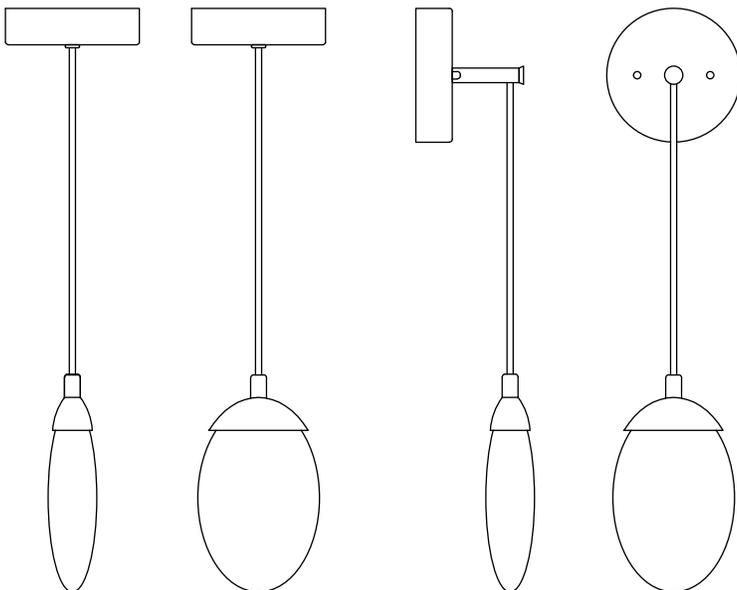

Can be made with multiple buds on a single fixture, each with its own defined height

Singles are most common

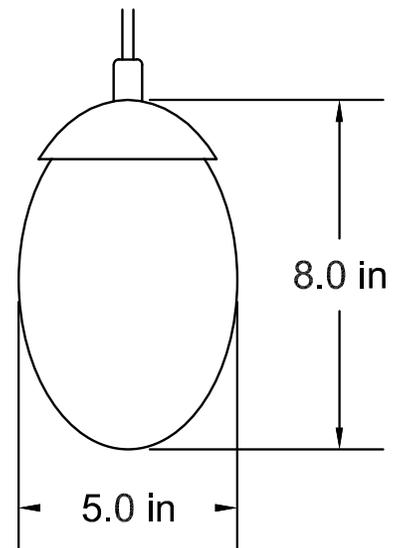

Wall light and pendant most common

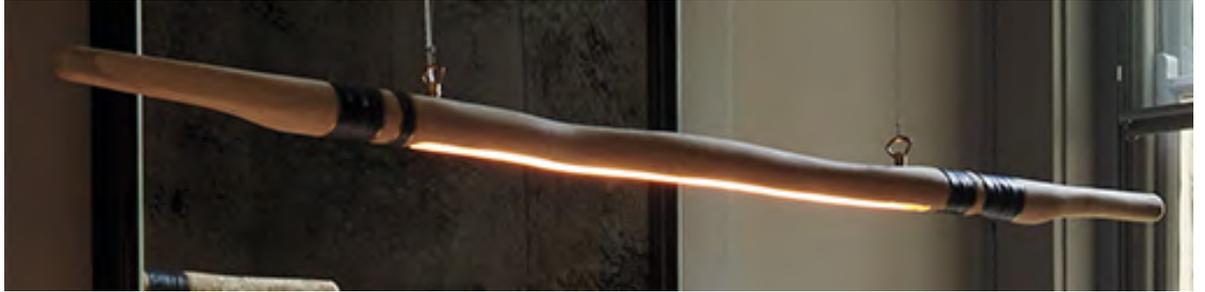

Each bud is measured from the bottom of the glass to the top-most point of canopy for the desired overall height

Glass drops with slots for metal clamp to secure to, carved oak cap covers metal clamp and LEDs

Drifter

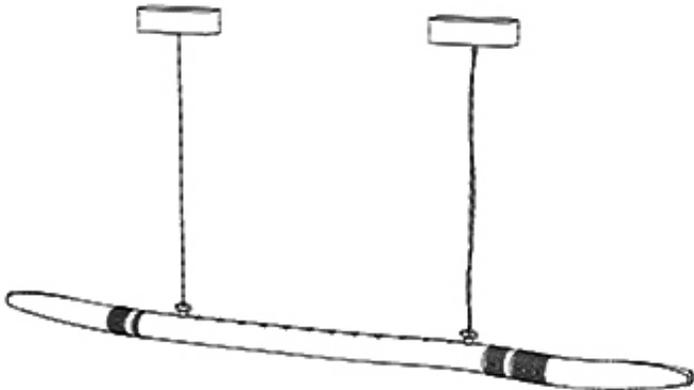

Solid oak fixture with brass canopies
LED - strip 2700K not UL listed

Standard sizes
54"
66"
90"

Cable mount required
2 canopies each with 1 cable
LED driver housed in only 1 canopy

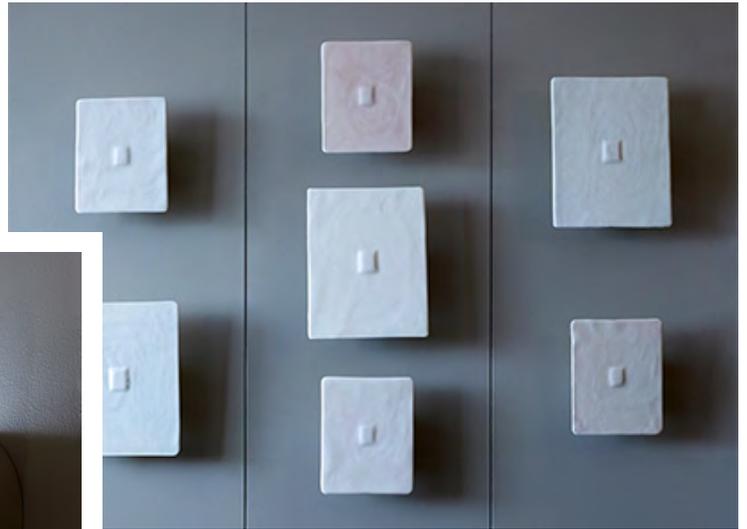

Cables are attached to "hangstraight" cleats for adjustment based on each uniquely shaped drifter fixture

Leather colors

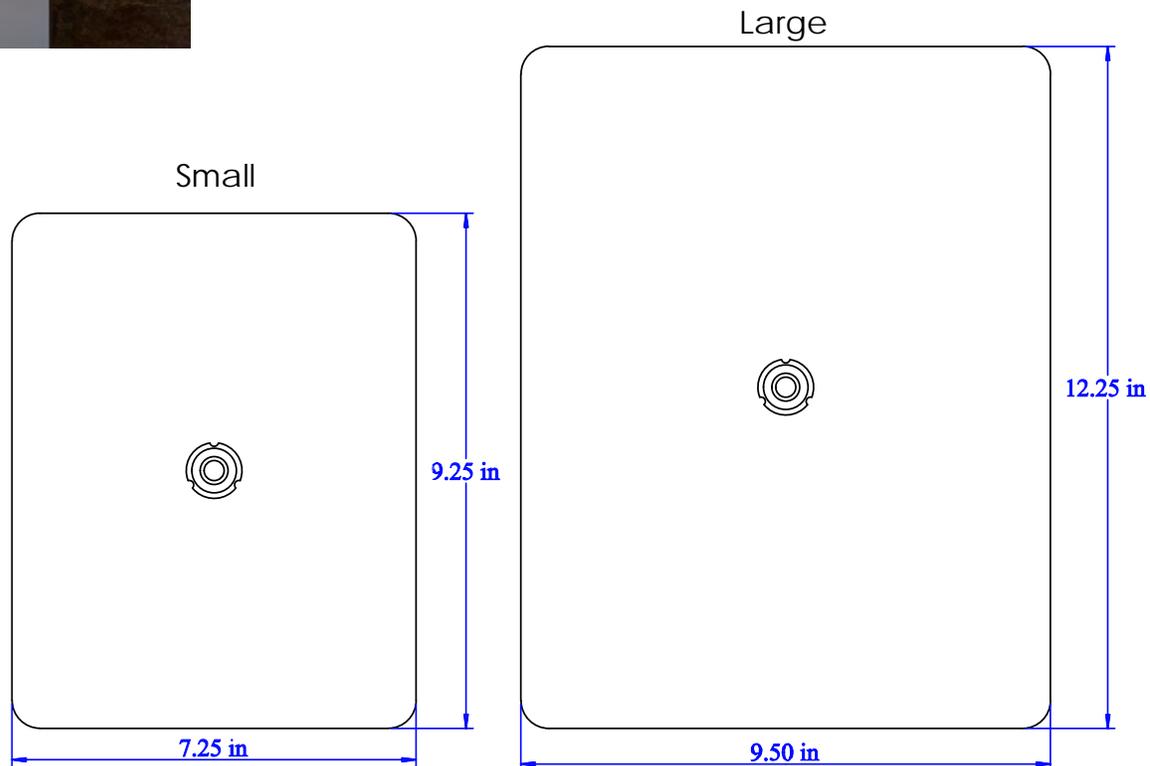

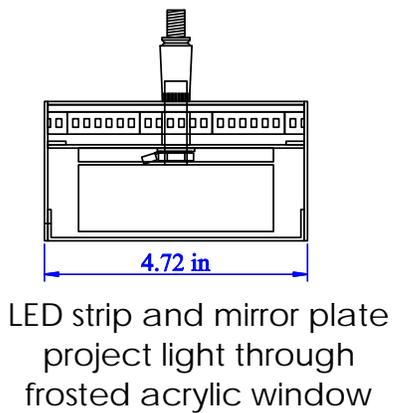

Mandala

Wall mounted steel housing
LED - strip 2700K not UL listed

Standard colors:
Shell White
Shell Pink

Porcelain plates with threaded flange
secured to the back

Sable

Standard finish: Black Jack powder paint
Square tubing frames covered with hand stitched leather

Sable Barstool
3/4" square tubing with 1.75" back rest
and 1/2" round brass footbar
standard seat heights: 25", 29", 33"

Sable Table
5/8" square tubing

Sable Stool
3/4" tubing with 1/2" round footbar

Sable Chair
5/8" square tubing with 4" back rest
with or without arm rests

Wisp

3/16" thick steel frames covered in hand stitched leather
Decorative brass feet
Standard finish: Super Grip Black powder paint

Wisp rectangular
3/16" folded steel legs
top inset 1/8" down

Wisp round
3/16" rolled steel legs
top flush

Wisp rectangular
with optional leather shelf
supported by brass rods in legs

Standard round sizes 18", 14", 10"
21" tall

Willow Table

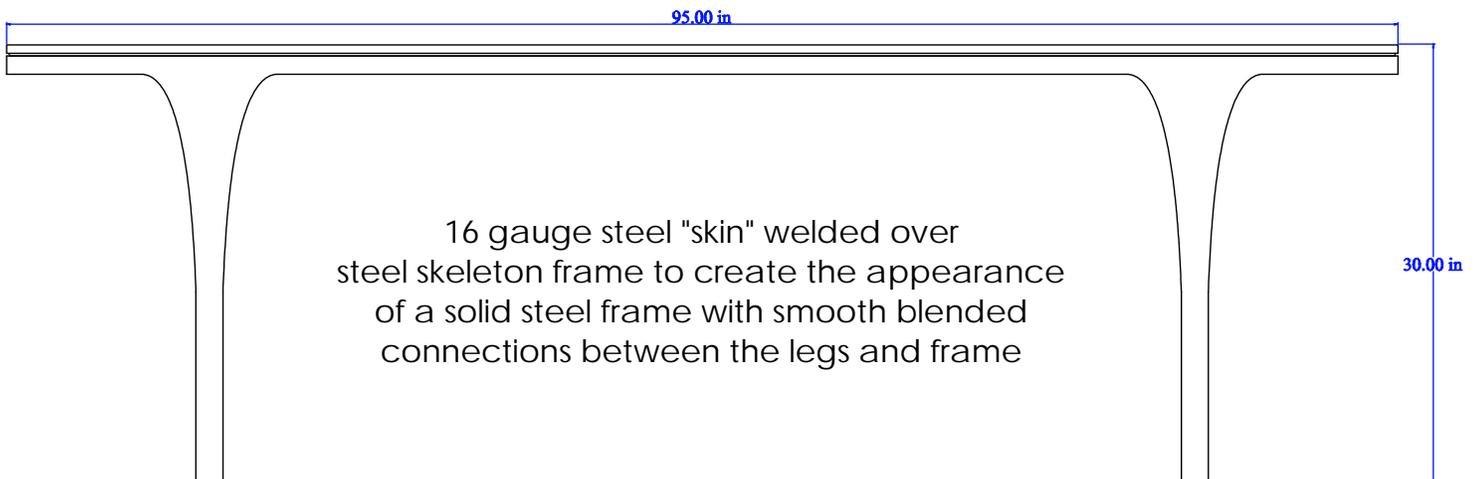

Steel frame table with wooden top
Flat Winter Gray powder paint standard

Oval and rectangle shapes standard

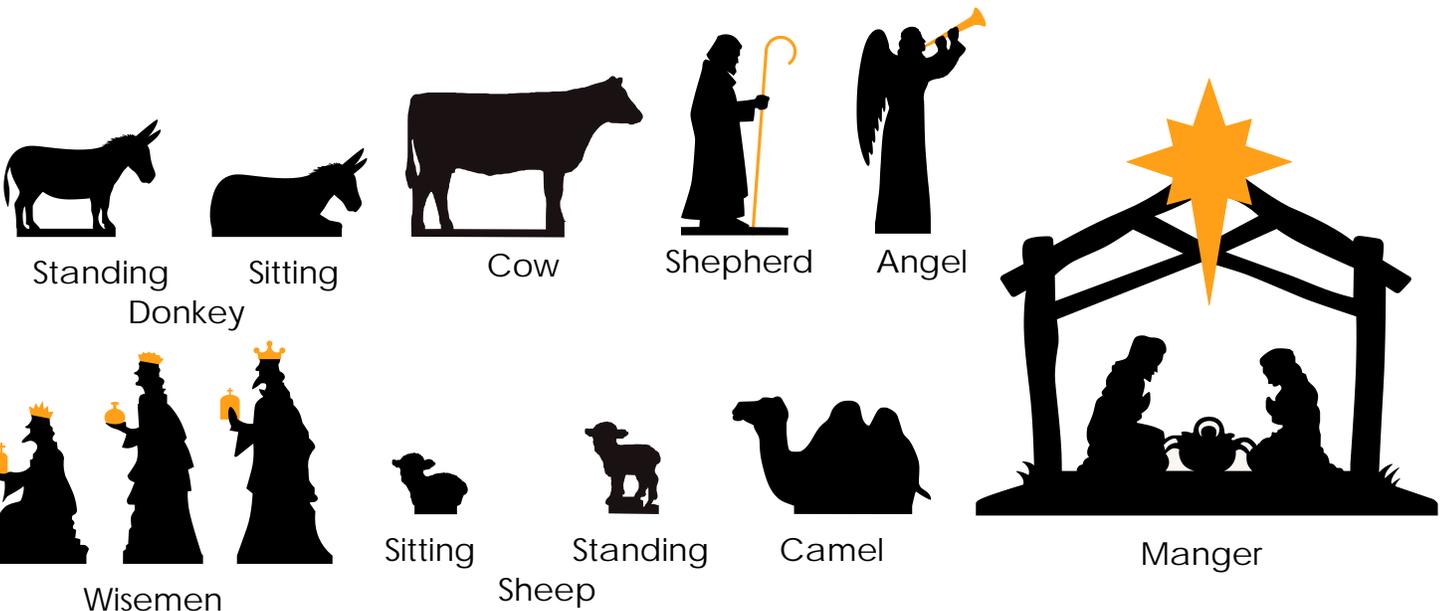

Standard tops
3/4" plywood with a Venetian Plaster finish
7/8" solid hardwood

Mustard Seed Gift Shop

Custom products available exclusively at the Mustard Seed gift shop in Glandorf, OH.
All yard signs are made from laser cut 1/8" thick steel and coated with powder paint.
